

7. Scheme for Development of Basic Infrastructure in Weavers' Colony

A program has been formulated to provide basic infrastructure facilities in the areas where the weavers vastly reside by developing Roads, sanitation, installation of street lights and drinking water facilities and sanctioning sites to landless weavers. By providing these facilities in the areas where minimum 20 weaver families reside, they can be developed as modern colonies.

8. Express Feeder

Required grants will be provided for installation of Express Feeder through Powerloom Cooperative Societies, Multipurpose Cooperative Societies, Self Service Associations, Women's Service Cooperative Societies and Non-Government Organizations to the areas / weavers' colony where the concentration of powerloom weavers is more for supplying uninterrupted power to their production activities.

9. Power Subsidy @ Rs. 2/- per unit for encouraging Cooperative Spinning Mills

Government is providing Power Subsidy of Rs. 2/- per unit to the Cooperative Spinning Mills in the State to overcome their problems and to improve their income.

10. Subsidy of 5% on the Cotton Purchased by the Cooperative Spinning Mills from Cotton Corporation of India.

Government is providing 5% Subsidy on the value of cotton purchased by the Cooperative Spinning Mills from Cotton Corporation of India to overcome their problems and to improve their income.

SPECIAL PROGRAMME

• Sanitary Napkin Manufacturing Unit

Encouragement is given for establishment of women friendly an innovative "Sanitary Napkin Manufacturing Unit" under Swaccha Bharath Abhiyaan and to provide good quality sanitary napkins at minimum costs to the women at town and villages.

Department is determined to encourage the new startups who want to establish a unit with the above objective. If women are encouraged in this field, this enables them to be self-dependent and also increase their income. Women Empowerment is the main objective. Minimum project Cost is Rs.25.00 lakhs, subsidy can be claimed under the schemes available in the Department.

• Leather Textile Industry at Hubballi

As there is a huge demand for leather products at National and International Markets It is proposed to establish Leather Textile Industries at Hubballi. Department is determined to encourage the new startup Entrepreneurs who want to establish unit with the above objective.

People are encouraged to take up the above industry, which will enable them to be self-dependent. This will result in creation of job opportunities to the people and thereby increase their income. Minimum project Cost @ Rs.25.00 lakhs, subsidy can be claimed under the schemes available in the Department.

• Development of Chamarajanagar as "Knitwear Hub" of the State (Knitwear and Hosiery)

Textile Companies are manufacturing Readymade Garments in the State, but as far as knitwear is concerned, its production is not as per the demand. Knitwear units are hardly found in the state. As Chamarajanagar is located nearer to Coimbatore and Tirpur Districts of Tamilnadu, where the knitwear raw material and job work are vastly available, Chamarajanagar has the optimum atmosphere for knitwear activities.

Department is determined to encourage the new startup entrepreneurs who want to establish a Knit unit. By establishment of these units, Chamarajanagar would be developed as 'Knitwear Hub' of the state.

• Development of Boregaon of Belagavi as Model Textile Park

As Belagavi is located at the border of Maharashtra State, it is proposed to develop this Park like Ichalkranji by installing Powerlooms with modern technologies. Hence, it is decided to encourage new entrepreneurs who would like to establish units in this Textile Park.
